Art Unit: 1791

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-23 and 25, drawn to a process of making a fabric.

Group II, claim(s) 24, drawn to a process of making a fabric by freeform fabrication.

Group III, claim(s) 26-48, drawn to an apparatus for making a fabric.

2. The inventions listed as Groups I - III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: There is lack of unity between claim 24 and claims 1-23 and 25 and 26-48 because claim 24 has nothing in common with claims 1-23 and 25 and claims 26-48. The technical feature common in claims 1-23 and 25 and 26-48 is a moveable nozzle wherein flow through the nozzle and movement of the nozzle is controlled, which is taught at least by U.S. Patent 5,936,861 A. Since claims 1-23 and 25 and 26-48 fail to define a contribution over at least this reference, the claims fail to constitute a special technical feature and hence there is lack of unity between the cited claims.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

Art Unit: 1791

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Leo B. Tentoni whose telephone number is (571) 272-1209. The examiner can normally be reached on Monday - Friday (6:30 A.M. - 3:00 P.M.).
